I am Dr. Kaneez Fatima Shad from Australia and I'm a Professor of Neuroscience. I enjoyed this cardiovascular conference a lot. This event is very well organized by Scientex, and they are highly recognized in this field and what I'm saying is that for the first day, for the first two speakers, it's amazing. It's very well-oriented and very well-organized. There are a lot of technical issues around the world for every conference, but this is very well handled by the coordinators and all these people who are organizing and I really enjoy it this time. Thanks.

Hi. I am very pleased to be here as a clinical psychologist from Hungary. To be here together between surgeons and cardiologists. So it was a very big pleasure for me. I was from Hungary and I'm a psychologist I wanted to show the surgeons a perspective and other perspectives, our psychologist perspective. It was a very great day for me and a great experience for me from around the world. The surgeons, they show very new examinations and research. So it was really interesting for me and I can take home very important news and research things. So, I am very pleased to be here because I'm a natural surgeon. It was a very good adventure for me.
